ABSTRACTS

API-AGA Joint Committee on Oil and Gas Pipeline Field Welding Practices....June 66
Corrosion Problems in the Modern By-Product Coke Plant....June 74
Design of Anode Systems for Cathodic Protection of Underground and Water Submerged Metallic Structures....June 70
Determining the Coefficient of Discharge of Segmental and Eccentric Orifices....June 64
Development of a Water Vapor Recorder....June 64
Nitrogen Removal....June 64
Performance of Magnesium Galvanic Anodes in Underground Service....June 74
Pipeline Flow Investigation....June 66
Progress Report on the Use of Cathodic Protection in Conjunction With Paint Coatings....June 68
Proposed Revisions of Section 2, Gas and Air Piping, of Code for Pressure Piping ASA B 31....June 66
Special Committee on Increased Design Stresses, Pressure Vessel Research Committee, Welding Research Council....June 68
Surface Preparation Values and Sandblasting Economics....June 75
Study of Some Metals for Permanent Anodes in Water Tank Cathodic Protection Systems....June 72
